## Business Process Rapid Application (BP RApp): Process automation in 4 weeks!

Process automation doesn't have to take a long time or cost a lot!

Our BP RApp will convince you how quickly you can achieve significant added value using our approach. Take the first step toward quickly automating your essential processes. You'll be delighted!

### Here's how it works:

1. Think about which process you've always wanted to automate.
2. Contact us and schedule a workshop with us.
3. We verify your requirements and map your process within a day. Our goal: An executable process – validated jointly with you – that corresponds exactly to your expectations.
4. In collaboration with you we define the formulas to be used in the process.
5. We translate the defined process into a BP RApp for you, including dynamic data integration and linking the formulas to your existing IT landscape.
6. In just 4 weeks your automated, executable process is ready for productive application.
7. We provide instruction for your power users.
8. You get one consulting day scheduled at your convenience.
9. You will be delighted.

**At the best thing:** You get the whole package starting at €50,000 – regardless of the number of users!

Your investment has never paid off so fast!

With its Metasonic Suite, Metasonic AG has developed a platform for dynamic process applications based on its patented subject-oriented business process management (S-BPM) method, which provides companies with a unique, agile BPM solution that puts employees and their communications in the center of the process description. Numerous prestigious companies are already convinced of the many advantages of this business process solution. Metasonic is a young, venture capital-financed company, in which T-Venture (Deutsche Telekom) is a strategic investor.

### Who is BP RApp for?:

- You want to make your company more flexible.
- You want to map elaborate communications with numerous roles and various hierarchies.
- You want to get a handle on complexity.
- You want the change now!

### Your advantages:

- In 1 day your process is mapped.
- In 4 weeks your process is automated.
- In 4 weeks you have your process under control and have increased its quality considerably.
- In 4 weeks you and your employees will be delighted.

### Don't wait!
